

REFRESH

Latest news from CCEP Australia as we make, move and sell some of the world's most loved brands.

3rd Edition | October 2022

Refresh your mind with new Sprite Lemon+

We call it Sprite with bite, and for good reason. The zesty lemon flavour, sharp fizz and added invigoration of caffeine makes Sprite Lemon+ the ultimate way to refresh minds.

Lemon-flavoured drinks are hugely popular, and with more consumers seeking beverages with functional ingredients such as caffeine, Sprite Lemon+ is sure to help put a big PLUS in your drink sales.

Call our National Sales Centre on 13 COKE (13 26 53) to order.

Coca-Cola Australia commits to reducing sugar by 25% by 2025

Together with our partners at Coca-Cola South Pacific, and others in the Australian beverage industry, we've pledged to reduce the sugar content in our non-alcoholic beverage portfolio by 25% by 2025 (vs 2015).

We've already achieved a reduction of more than 16% since 2015, driven by reformulations, smaller pack sizes and the growing popularity of low and no sugar options.

Peter West, Vice President and General Manager, Australia, Pacific and Indonesia at CCEP, said:

"We're proud of the progress we've made to reduce sugar in our portfolio, and at the same time retain the choice we offer consumers through a range of low and no sugar options and pack sizes."

Cheers to love

Coca-Cola Australia has joined Sydney WorldPride and Sydney Gay and Lesbian Mardi Gras as a Supporting Partner.

As the bottler of Coca-Cola down under, we couldn't be more excited to work closely with the team to bring this partnership to life in 2023.

Celebrating 45 years of recycling and community contribution in SA

Since 1977, CCEP has proudly supported South Australia's Container Deposit Scheme (CDS), which has reduced litter and contributed to local community organisations, like the Scouts.

We're passionate about creating a circular economy for our packaging, which is why CCEP is active in every CDS operating in Australia.

CDS are vital to helping us close the loop on plastic - making our bottles into bottles again and again. CDS also create jobs and address climate change.

It's estimated that every 1,000 containers recycled through a CDS will prevent the release of 121 kilograms of carbon dioxide emissions.

CCEP Australia moves closer to RE100

Last month, we moved one step closer to our 100 per cent renewable electricity target, thanks to an agreement with Alinta Energy and supported by one of Western Australia's largest wind farms.

The eight-year agreement will propel our ambition to achieve net zero by 2040 for direct emissions. As part of this target, we're working towards a goal of 100 per cent renewable electricity across our operations by 2025.

The long-term agreement which commences on 1 January 2023, includes large-scale generation certificates and 13,000 MWh a year of renewable electricity supplied from the Yandin Wind Farm*, located in the wheatbelt town of Dandaragan, 175km north of Perth.

Our team wins national health & wellbeing award

We're honoured to have been awarded Best Health & Wellbeing Program at the recent Australian HR Awards.

At CCEP Australia, we're always looking to how we can improve the support we provide our people. This award not only recognises the unwavering commitment of our Health & Wellbeing team but also acknowledges our industry-leading approach to people support.

As a part of our wellbeing program, we now offer our employees access to CancerAid, providing employees impacted by cancer with much-needed support. This allows our people to access a suite of innovative, digitally-led programs to support them as they navigate the challenges of cancer.

CCEP and PremiAir Racing unveiled retro livery at the 2022 Repco Bathurst 1000

Look familiar? That's because it is!

At the 2022 Repco Bathurst 1000, PremiAir Racing's #22 Commodore ZB, sponsored by Coca-Cola Europacific Partners, donned an iconic, retro livery.

The design was inspired by the Coca-Cola Commodore VR that Wayne Gardner and Neil Crompton took to a podium finish in the Great Race in 1995.

Celebrating 50 years of Coca-Cola made in Northmead

25 September marked 50 years since the first Coca-Cola product made in Northmead, NSW, rolled off Can Line 1. It was a humble can of Tab, the predecessor of Diet Coke and Coca-Cola No Sugar – both popular favourites today.

Plenty has changed since 1972. Technology has allowed us to make more beverages, more quickly, and sustainability is embedded across all aspects of our operations, from our approach to water stewardship through to our use of recycled content in our packaging.
