

# ENVIRONMENTAL POLICY STATEMENT

June 2017

Climate change is one of the most serious and complex challenges facing the world. At Coca-Cola European Partners (CCEP), we believe that urgent action must be taken to tackle the issue. This is a critical issue for our business, and we are committed to playing our part in global efforts to tackle climate change, in line with the 2015 Paris Climate Change Agreement.

We will work with our stakeholders to identify, manage, and minimize the environmental impact of our activities, both within our own facilities and within our supply chain.

Coca-Cola European Partners is committed to:

- Setting environmental targets, including on carbon reduction, renewable energy, packaging and recycling, water usage and replenishment, and sustainable sourcing.
- Continuously reviewing and improving our environmental performance.
- Ensuring our compliance with local and national environmental legislation and regulations, focusing on effectively utilizing resources, energy and fuel, minimising waste and air emissions, and preventing pollution everywhere we operate.
- Complying with environmental standards implemented by The Coca-Cola Company and other requirements to which we subscribe, where possible and commercially viable.

We will monitor, audit, and publicly report progress regarding the implementation of this policy and our commitments in an annual Stakeholder Progress Report. This policy will be reviewed annually, and published on our website.
